

*Is this your  
version of  
computer  
self-defense?*

*It's not enough!*

*Use common sense for your self-defense!*

*Keep your computer updated and **antivirus** and **anti-spyware** programs up to date!*

*Use **passwords** and **firewalls** to keep your computer protected from outside intruders!*

*Don't let yourself be caught without protection!*

**digital  
self  
defense**

Protect yourself and everyone else
